

CMP PROJECT FACILITY WITHDRAWALS

updated 4/2026

Per the CMP Applications Handbook provided by CMS, "Nursing Homes are expected to honor their commitment for the entire length of the project. While circumstances may change during implementation, any withdrawal after a project has been approved compromises the project's integrity." CMS has placed the responsibility of monitoring project withdrawal on State Agencies. They have further indicated that once a facility commits to a project, that facility's funding is "locked up" for the duration of the project, whether it completes the project or not. Therefore, the facility is unable to participate in another CMP-funded project of the same type/category until the project it is committed to has ended. *Below is a list of facilities that have withdrawn from projects and **are unable to participate in the same type of project until after the project end date**.* For more information, please contact brandi.jordan@dhhs.nc.gov

Facility	CCN	Project	Type of Project	Project End Date
Alamance Healthcare Center	345420	Qsource	TRAINING	May 31, 2026
BellaRosa Nursing & Rehab	345574	Virtual Dementia Tour	TRAINING	February 28, 2027
